Second Expert Panel

- Multidisciplinary group of clinicians and scientists with expertise in asthma management
- Health professionals from internal medicine, family medicine, pediatrics, emergency medicine, allergy, pulmonary medicine, nursing, pharmacy, and health education

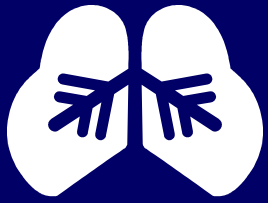

Charge to the Second Expert Panel

- Review and update the 1991 Expert Panel Report
- Prepare recommendations for health care providers working in diverse health care settings
- Address practical decisionmaking issues in the diagnosis and management of asthma
- Develop specific aids to facilitate implementation

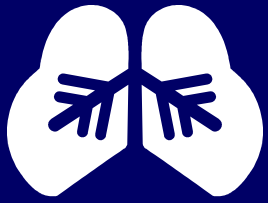

Expert Panel Report 2: Development Process

- Prepared in a systematic and iterative process
- Based on 1991 Expert Panel Report plus 5,000-article review
- Conducted indepth reviews of the literature in selected controversial areas
- Multiple outside peer reviews
- Reviewed and endorsed by NAEPP Coordinating Committee

Expert Panel Report 2: Documentation of Recommendations

- Cited studies that support the recommendations
- When clear recommendations could not be extracted from the literature, they are labeled “based on the opinion of the Expert Panel”

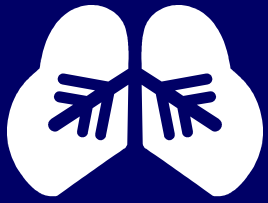

Expert Panel Report 2: Availability
